

## ASIA PACIFIC INITIATIVE ON REPRODUCTION

Dear Japanese Doctors,

There are many patients travelling across our borders for fertility treatments. Many of our colleagues attending ASPIRE 2018 in Taipei, Taiwan and ASPIRE 2017 in Kuala Lumpur, Malaysia perceived a need to provide guidance in the area of cross border reproductive care and the ASPIRE Executive Board recognizes this as a priority. It is with this in mind, that we would like to ask you to send in nominations from Japan to be a member(s) of a working group on Cross Border Reproductive Care.

The objective of this working group is to first, collect some qualitative data on the magnitude and practices of Cross Border Reproductive care. The group may be able to define existent legislation, begin to quantitate the extent of Cross Border Reproductive Care, identify gap analysis and suggest frameworks for clinics participating in Cross Border Reproductive Care. Your involvement will include participation in online teleconferences, online survey and a session at ASPIRE 2019 in Hong Kong (for which there is no support funding) and review of electronic documents.

The working group will draft issues, questions and recommendations for consultation which will be circulated for comment to ASPIRE members, collated and revised by the working committee prior to review by to the ASPIRE Executive Board.

Yours Sincerely,

**Dr Clare Boothroyd**  
Vice President  
Asia Pacific Initiative on Reproduction

**Assoc Prof Kamthorn Pruksananonda**  
Chulalongkorn University,  
Bangkok, Thailand

**President**

Budi Wiweko  
Indonesia
